

Dear colleague,

Through this message, we would like to inform you that PhotoIUPAC 2024 will take place in Valencia from July 14 to 19, 2024. The website is now up and running; you can visit it and register to receive further updates. We hope you will be joining us in Valencia. Please keep an eye on our conference website for the latest information: <https://www.photoiupac2024.com/>

The 29th IUPAC Symposium on Photochemistry will bring scientists and engineers from all over the world with expertise in photochemistry, i.e., whose work involves the interactions of light and matter in a broad sense. Starting almost sixty years ago and running every other year with a brief hiatus during the COVID pandemic, this 29th edition will tackle contemporary issues and highlight cutting-edge methodologies and new theoretical and experimental developments. The conference themes will span from light energy conversion, of relevance to sustainable energy, to green synthetic methods based on photocatalysis, to the study of the reactive intermediates involved, the development and use of new sensors in materials and biomedical sciences, new photochemical and photophysical properties of nanomaterials, the theoretical underpinnings behind the experimental observations and the associated experimental methods of studies, spanning from ultrafast to single molecule techniques to new emergent modalities.

Important dates:

Opening of registration: 8th December 2023

Call for abstracts: 8th December 2023

Deadline for submission of oral abstracts: 15th February 2024

Notification of acceptance of oral abstracts: 24th March 2024

End of Early Bird registration: 20th April 2024

Deadline for submission of poster abstracts: 20th April 2024

Symposium dates: 14th-19th July 2024

Kind regards,

PhotoIUPAC2024 Organizing committee
